

CARSON VALLEY MEDICAL CENTER

Sponsor of the 93rd Annual Candy Dance

Carson Valley Medical Center
YOUR COMMUNITY HOSPITAL

Carson Valley Medical Center (CVMC) is Your Community Hospital, and that's not just a slogan for the hospital and affiliated clinics that are conveniently located throughout the Carson Valley. "Community is the reason the hospital exists. We are here to serve the community and sometimes that takes place outside the walls of the hospital. That's why we are proud to support the 93rd annual Genoa Candy Dance." Explains Susan Davila, CVMC Chief Executive Officer.

CVMC is a non-profit, full-service hospital serving the populations of the Carson Valley and surrounding areas. Located at the south end of

Gardnerville, Carson Valley Medical Center is a 23-bed hospital and Carson Valley's only 24-hour emergency room, which is staffed by board-certified emergency medicine physicians and specially-trained nurses. Although nestled in a small town, Carson Valley Medical Center's technology rivals hospitals in larger, metropolitan areas. Carson Valley Medical Center's diagnostic imaging services utilize advanced technology in mammography, CT, MRI, fluoroscopy, interventional radiology and nuclear medicine.

Services available at Carson Valley Medical Center include:

24-Hour Emergency Room
Acute Care and ICU
Full Service Laboratory
Imaging Services
Infusion Treatment

Interventional Radiology
Nutritional Counseling
Occupational Medicine
Physical & Occupational Therapy
Primary care offices located throughout the valley
Respiratory Therapy
Sleep Diagnostics
Speech Therapy
Surgery: Elective & Emergency
Wound Care

Patient-centered care is a priority and Carson Valley Medical Center. Our services are provided in a caring and healing environment. When you enter the doors of a Carson Valley Medical Center facility, you won't get that sense that you have become just another number in the complicated healthcare system. Instead, you are a person who needs to be not only treated, but cared for. Patients at Carson Valley Medical Center experience a different kind of healthcare that includes bedside massages, aromatherapy, non-pharmacological pain management, expanded menu selections, family involvement, and open visitation hours.
